

Amendments to the Claims

Please cancel claims 8, 11 and 12. Please amend claims 1, 13-16, 24 and 25. The currently pending claims after amendment are listed below.

1 1. (Currently Amended) A method of providing souvenir images to event site customers,
2 comprising:
3 capturing ~~at least one~~ image data during an event for automatically generating a plurality of
4 images of different event site locations within an event site, wherein ~~the at least one~~ each image of
5 said plurality of images is associated with ~~an~~ a respective one of said event site ~~location~~ locations,
6 wherein each said event site location is occupied during said event by a respective discrete subset
7 of said event site customers;
8 receiving, in an automated interactive device, an input from a customer specifying a
9 desired event site location from the customer, said receiving step being performed after said step
10 of capturing image data; and
11 responsive to said step of receiving a user input, automatically displaying to the customer
12 in said automated interactive device ~~the~~ at least one image associated with the desired event site
13 location.

1 2. (Original) The method of claim 1, further comprising providing the at least one image to
2 the customer.

1 3. (Original) The method of claim 1, wherein the at least one image comprises an electronic
2 image.

1 4. (Original) The method of claim 1, wherein the at least one image comprises a scoreboard
2 display signal.

- 1 5. (Original) The method of claim 1, wherein the at least one image comprises a television
2 broadcast signal.
- 1 6. (Original) The method of claim 1, wherein the at least one image comprises a video clip.
- 1 7. (Original) The method of claim 1, wherein the at least one image comprises a photograph.
8. (Cancelled)
- 1 9. (Original) The method of claim 1, further comprising receiving money from the customer.
- 1 10. (Original) The method of claim 1, wherein receiving desired location information from
2 the customer comprises receiving a seat number from the customer.
- 11-12. (Cancelled)
- 1 13. (Currently Amended) The method of ~~claim 1~~ claim 2, wherein providing the at least one
2 image comprises:
3 receiving an electronic mail address from the customer; and
4 transmitting the first image to the electronic mail address.
- 1 14. (Currently Amended) The method of ~~claim 1~~ claim 2, wherein providing the at least one
2 image comprises:
3 printing the at least one image.

1 15. (Currently Amended) The method of ~~claim 11~~ claim 2, wherein providing the at least one
2 image comprises:

3 writing the at least one image onto a signal bearing media.

1 16. (Currently Amended) A system for providing souvenir images, comprising:

2 a selection input device adapted to receive a desired location within an event site from a
3 customer; and

4 ~~a processor adapted to correlate the desired location with an event site location;~~

5 a camera adapted to capture ~~at least one image~~ data during an event for automatically
6 generating a plurality of images of the different locations within said event site location, wherein
7 each image of said plurality of images is associated with a respective one of said locations within
8 said event site, wherein each said location within said event site is occupied during said event by a
9 respective discrete subset of customers attending said event;

10 an image database for storing said image data;

11 a processor adapted to automatically correlate the desired location within said event site
12 received from a customer at said selection input device with at least one image associated with the
13 desired location within said event site, wherein the desired location is received from the customer
14 at said selection input device and correlated by said processor with the at least one image after
15 said camera captures said image data; and

16 an image delivery apparatus adapted to automatically provide the at least one image
17 associated with the desired location to the customer responsive to customer input of a desired
18 location within said event site to said selection input device.

1 17. (Original) The system of claim 16, wherein the image delivery apparatus comprises a
2 kiosk.

1 18. (Original) The system of claim 17, wherein the image delivery apparatus comprises a
2 printer operably connected to the kiosk.

1 19. (Original) The system of claim 17, wherein the image delivery apparatus comprises an
2 optical disk writer operably connected to the kiosk.

1 20. (Original) The system of claim 16, wherein the selection input device comprises at least
2 one of a touch sensitive monitor and a keypad.

1 21. (Original) The system of claim 16, wherein the image delivery apparatus comprises a
2 server computer operably connected to a computer network.

1 22. (Original) The system of claim 16, further comprising a stadium display unit operably
2 connected to the camera, the stadium display unit adapted to display the at least one image to a
3 plurality of event site customers.

1 23. (Original) The system of claim 16, wherein the image comprises at least one of: a video
2 clip, a photograph, a digital photograph, and a digital video clip.

1 24. (Currently Amended) A system adapted to provide souvenir images to event site
2 customers, comprising:

3 a camera adapted to capture a plurality of ~~pictures~~ images of different locations within
4 an event site during an event;

5 a sensor that automatically correlates each image of the plurality of images with a
6 respective discrete subset of a plurality of seat locations at said event site;

7 a an automated kiosk for interactive use by a customer after said camera has captured said
8 plurality of images, comprising:

9 a an automated ticket reader that receives an assigned seat location from a customer;

10 a display that automatically displays an image in the plurality of images associated with the
11 assigned seat location responsive to receiving the assigned seat location in said ticket reader;

12 a payment receiver that receives a required payment from the customer; and

13 a printer that automatically prints the image associated with the desired seat location in
14 response to the payment receiver receiving the required payment.

1 25. (Currently Amended) A computer program product, comprising:

2 (a) a program configured to perform a method of providing souvenir images to event site
3 customers, the method comprising:

4 1) capturing ~~at least one~~ image data during an event for automatically generating a
5 plurality of images of different event site locations within an event site, wherein ~~the at~~
6 ~~least one~~ each image of said plurality of images is associated with ~~an~~ a respective one
7 of said event site location locations, wherein each said event site location is occupied
8 during said event by a respective discrete subset of said event site customers;

9 2) receiving, in an automated interactive device, an input from a customer specifying
10 a desired event site location information from the customer, said receiving step being
11 performed after said step of capturing image data; and

12 3) responsive to said step of receiving a user input, automatically displaying to the
13 customer in said automated interactive device ~~the~~ at least one image associated with
14 the desired event site location; and

15 (b) a recordable signal bearing media bearing the program.
